

1st Announcement and Call for Abstracts

Characterization of Deep Geothermal Systems

15-16 October 2014, KIT Karlsruhe

This workshop aims at discussing new approaches, methods or data in the fields of deep geothermal reservoirs for energy exploitation with a strong focus on on-going research. It proposes a platform of scientific exchange, especially between PhD students and scientists. We encourage PhD students and scientists involved in geothermal reservoir technology to present their recent research and ideas. It is foreseen that the workshop contributions will be published in the special issue of a reviewed journal.

Keywords:

- Reservoir exploration
- Integrative approaches, joint inversions
- Chemical effects of thermal water deep circulation
- Reservoir monitoring

Preliminary Registration: **20 July 2014**

Extended Abstract Submission (4 pages): **15 September 2014**

Final Registration: **30 September 2014**

EGW 2014

3rd European Geothermal Workshop
 Karlsruhe, 15-16 October 2014

Characterization of Deep Geothermal Systems

Preliminary Program

Wednesday 15 October 2014		
Time	What	Who
08:30	Registration + Coffee	
09:00	Welcome message	T. Kohl & J. Schmittbuhl
09:15	Key Note 1 / Discussion	To be confirmed
10:00	Session 1: Reservoir exploration	Session Chair
10:10	PhD presentations and coffee break	Ph.D.
12:00	First Aid session	
12:30	Poster Lunch (Already opened since the morning)	
14:00	Key Note 2 / Discussion	Zonghe Pang (Chinese Academy of Science, Beijing)
14:45	Session 2: Reservoir modelling	Session Chair
14:55	PhD presentations and coffee break	Ph.D.
16:45	First Aid session	
17:15	Key Note 3 / GeoLaB	Thomas Kohl (Geothermie, KIT)
19:30	Dinner	
Thursday 16 October 2014		
08:30	Coffee	
09:00	Introduction of the day	
09:15	Key Note 4 / Discussion	Serge Shapiro (Geophysik, FU Berlin)
10:00	Session 3: Reservoir monitoring	Session Chair
10:10	PhD presentations and coffee break	Ph.D.
12:00	First Aid session	
12:30	Poster Lunch (Already opened since the morning)	
14:00	Key Note 5 / Discussion	Jean Desroches (Schlumberger)
14:45	Session 4: Reservoir engineering	Session Chair
14:55	PhD presentations and coffee break	Ph.D.
16:45	Poster prize winner and Conclusion	T. Kohl & J. Schmittbuhl
