

„One World – No Hunger“ Initiative

Strengthening Food Security in Africa

Three BMZ Special Initiatives

1. **“One World – No Hunger” Initiative**
2. **Tackling the root causes of displacement, reintegrating refugees**
3. **North Africa and the Middle East**

Urgent Need for Action

- 800 million people are suffering hunger, more than one billion more are undernourished. → Huge obstacle to development.
- The number of people in Africa suffering hunger is growing, the number of people living in fragile situations who are affected by hunger is growing.
- In many places agricultural activity is placing a heavy burden on nature and on the environment, agricultural resources are under threat ...
... and the population is still growing.
- At the same time, in many places access to resources (esp. land and water) is insecure and unfair.

Aim of the „One World – No Hunger“ Initiative

Overcoming hunger and malnutrition for
people who are alive today

+

Securing the conditions that will allow future
generations of a growing population to feed
themselves

Overall Approach of the „One World – No Hunger“ Initiative

Combining all activities by the BMZ in the areas of rural development, agriculture and food security, and fixing their strategic orientation

+

additional funding

Instruments and Spheres of Activity

- Bilateral cooperation projects
- Participation in multilateral programmes and initiatives
- Participation by civil society, business and science
- Helping to shape global agendas and framework conditions
- Promoting dialogue

„One World – No Hunger“ Initiative addresses all 4 dimensions of food security

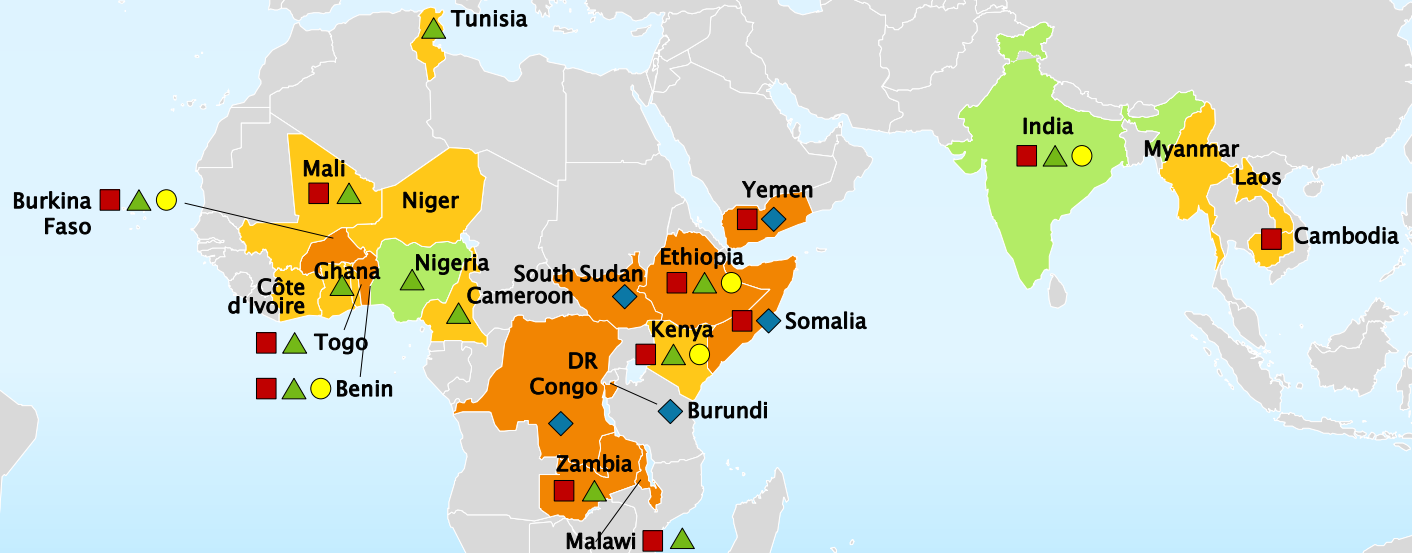

1. Physical **availability** of food
2. Economic and physical **access** to food
3. Food **utilization**
4. Stability of 1.-3. over time

Six Field of Action of the „One World – No Hunger“ Initiative

1. Food security and nutrition
2. Strengthening resilience and avoiding famine
3. Innovation in the agricultural and in the food sector
4. Rural transformation
5. Protecting natural resources
6. Secure and fair access to resources

“One World – No Hunger” Initiative: Focus Countries

- Food insecure focus country of the special initiative
- Other countries where rural development is a priority area of German development cooperation
- CRPF countries where activities within the framework of the special initiative are being carried out
- Food security projects
- ▲ Innovation centre for the agricultural & food sector
- Soil rehabilitation projects
- ◆ Increased engagement to promote food security through multilateral cooperation, non-governmental development cooperation and recovery and

Fields of Action 1 & 2:

Food Security and Nutrition, Resilience

- Tackling undernutrition, especially in mothers and young children
- Diversification of food supply
- Multi-sectoral approach
- Strengthening resilience to crises and conflicts, reducing hungry days

Fields of Action 3 & 4: Innovation, Rural Transformation

- Focus on smallholder agriculture
- Developing potential through improved access to markets and the possibility of producing more
- Promoting knowledge-based innovation as a driving force for progress in productivity
- Supporting socially and environmentally sound rural transformation

Why Innovation?

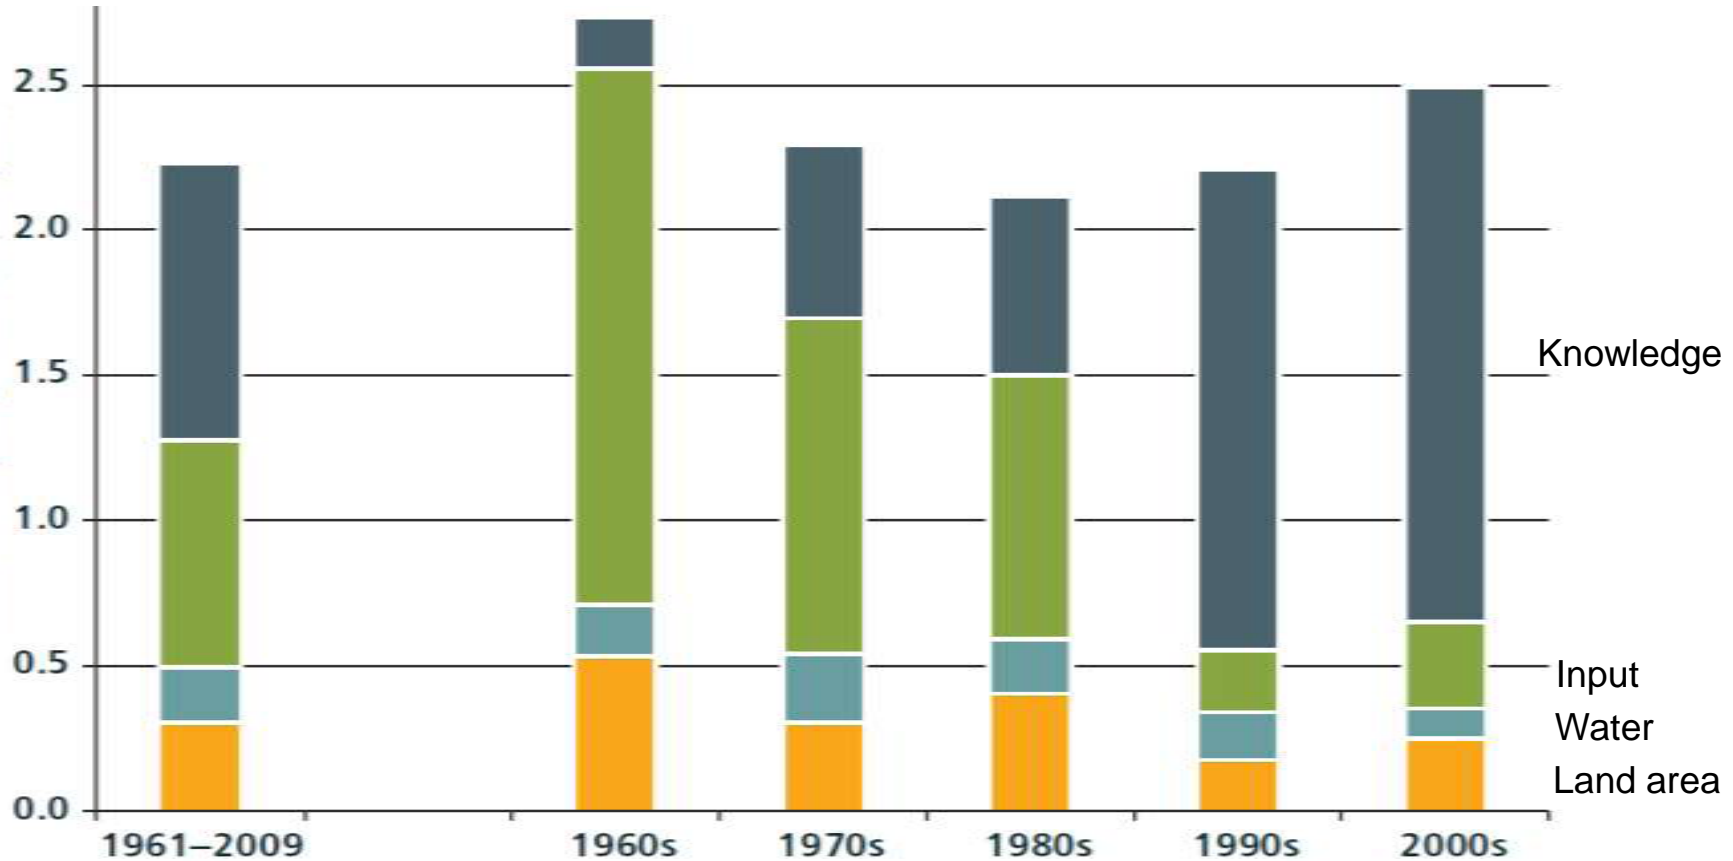

Why a Green Revolution for Africa?

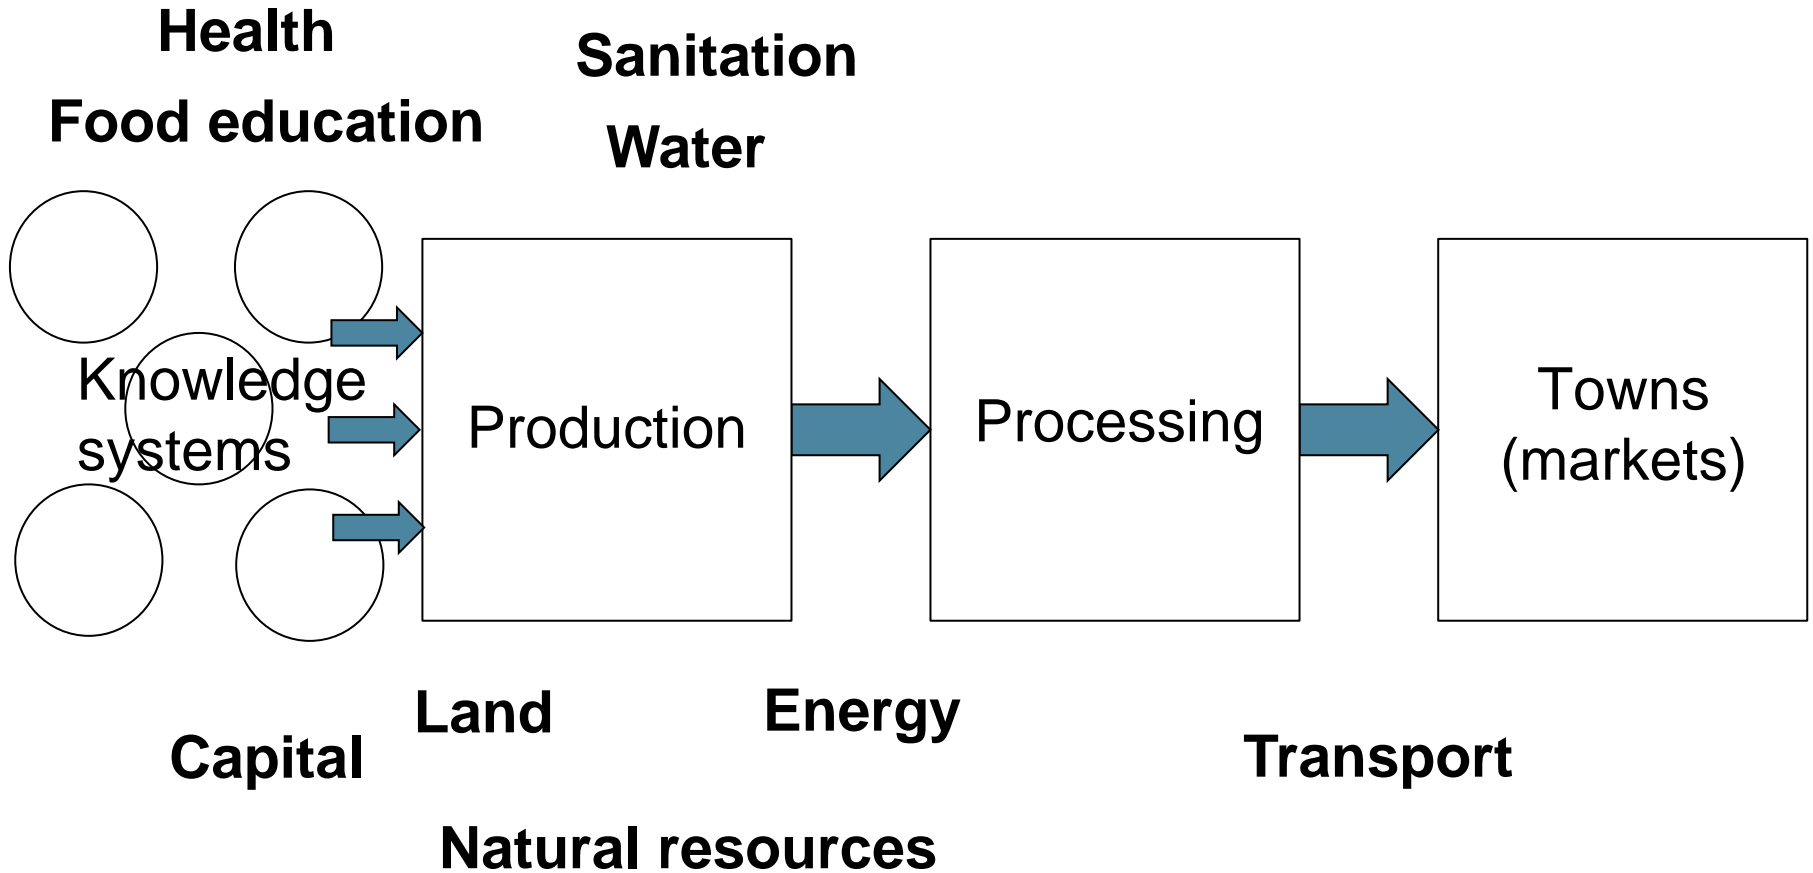

Innovation feeds the world:

Innovation accounts for 75% of global
agricultural growth (Africa: 40%)

Increase in factor productivity in global agriculture (% p.a.)

Fields of Action 5 & 6:

Resource Management, Access to Resources

- Protection and sustainable use of natural resources in rural areas
- In particular: restoring the fertility of degraded soils for smallholders
- Promoting the implementation of voluntary land guidelines
- Fair and secure access to land for smallholders and marginalised groups

**Thank you very much
for your attention!**
